

DOCEO comes from Latin, meaning **to inform, enlighten, demonstrate, and make bright**. **DOCEO AI** uses current and historical data within organizations to predict challenges and recommend solutions that strengthen operational performance.

DOCEO AI CLARIO delivers a natural, secure, and role-aware chat experience. It enables stakeholders across the organization to access trusted internal and external documents and policies through simple, natural-language conversations.

The **DOCEO AI** platform **boosts efficiency and productivity** by combining advanced analytics with AI-driven insights, empowering organizations to make smarter, data-informed decisions.
